

Spectrum Composites Answer to Diagnostic Service Carts

FlexCart® is designed to house and protect any computer configurations including laptop, tower, desktop and tablet models in addition to your diagnostic service tools. The proprietary "in-the-drawer" charging station allows you to protect and charge your electronic service tools. ***FlexCart***® is the first to combine the best of tool carts and computer carts into one flexible solution.

FLEX CART

Model SC5100 Shown

(computer equipment and diagnostic tools not included)

FLEX CART

FlexCart® standard features:

- 9" drawer with proprietary "in-the-drawer" power outlets for charging electronic service tools. (1)
