

Spectrum's Answer to Diagnostic Service Carts

FlexCart[®] is designed to house and protect your laptop, desktop or tablet computer in addition to your diagnostic service tools.

FlexCart[®] is the first to combine the best of tool carts and computer carts into one flexible solution.

Model SC5300

(computer equipment and diagnostic tools not included)

FLEX CART[®]

FLEX CART

FlexCart® standard features:

- 9" drawer with proprietary "in-the-drawer" power outlets for charging your electronic service tools. (1)
- Full extension keyboard drawer with retractable mouse pad platform (left or right handed). (1)
- Protective tubular corner bumpers reduce the potential for damage to vehicles in the service bay. (4)
- All drawers are lockable with full extension slides.
- Narrow footprint (21" depth) provides ease of mobility between service bays.
- Fan filtration and power management system includes 70 CFM fan, 15' power cord and master on/off power switch.
- Stationary internal equipment shelves (2).
- Four (4) commercial grade 5" x 1.25" swivel casters (2 locking).
- APC seven (7) outlet surge protector.
- Communication data plate with punch-outs for (2) USB, (2) RJ11 or RJ45 & (1) DB9 (patch cables sold separately).
- Heavy duty cord wrap brackets (2).
- Custom molded cable hangers (5).
- Adjustable equipment securement straps for internal computer or printer equipment (2).
- Universal monitor securement system.
- Large rear access panel (vented).
- Durable non-slip drawer liners. (2)
- Lockable 30" door with built in CD storage.
- Document storage bin on side of cart. (1)
